

### Dominique Lapierre Community Health Centre

- Dominique Lapierre Community Health Centre, Keoradanga.
- Dominique Lapierre Community Health Centre, Kathila.

**Project Goal: Create a healthy society for marginalized community.**

#### Project Overview

Community Health Centres are functioning to provide medical treatment and consultation by General Physician and specialized doctors. The unit is functioning in Kathila HQ premises as well as in Keoradanga, Amtala premises. Moreover, in Kathila premises we have also an x-ray facility and physiotherapy facility for the community people.

#### Project Objectives:

- To provide free medical advice from General Physician and Specialized Doctors for the underprivileged people.
- To provide free medical services for the poor patients.
- To provide Reproductive Child Health services to the rural people.
- To provide immunization concept to the rural mothers.

#### Major Activities

##### □ New Admission and discharge:

We provided medical advices from general physician and specialized doctors and also provided medicine at free of cost.

Sl. no	Name of the clinic	Male	Female	Children	Total
1.	General Physician	816	1378	1114	3308
2.	Psychiatrist (Kathila campus)	235	264	176	675
3.	Psychiatrist (Keoradanga campus)	148	168	-	316
4.	Dental	7	23	116	146
5.	X-ray	29	32	14	75
	Grand Total	1235	1865	1420	4520

On 26<sup>th</sup> May 2014 we have shifted our community health centre of Keoradanga campus in a new building where we are able to provide more and more services to the community people.
