Brief narrative description of the child

Baby is 15 years old, a badly Cerebral Palsy affected child with 90% disabilities. Before she couldn't do nothing. Receiving physiotherapy from Asha Bhavan Centre now she is able to eat with special spoon, sit, moves by creeping indoor environment, but very difficult. Able to indicate in times of nature call. She is dependent on others for her personal work. Baby's father has expired and mother is a mentally ill woman. Baby's uncle works as a daily worker and earns very low amount to maintain the family. It is very difficult for the family to meet her special need to become independent in life. At present she needs a wheel chair for her mobility, physical management program, ADL training program. In this situation her uncle is seeking supportive hands for their daughter's improve and make her able in life.
