Brief narrative description of the child

Afsona is 7 years old, a Cerebral Palsy affected child. She belongs from very poor family. Her father works as a daily labor and earns very low amount to maintain the family. At present she is able to eat with special spoon, seat and move by bunny hopping. But she is dependent on others for her daily living activities. Afsona needs physical management program, ADL training management and Special educational support for her holistic development. It is very difficult for her parents to fulfill these special needs of their daughter. Therefore, their parents are seeking supportive hands for their daughter's improvement and make her able in life.
